Its ingredients are so skilfully combined that the full alterative effect of each is assured, and while to children, it is still so effectual as to purge out from the system those impurities and corruptions which develop into loathsome disease. The reputation it enjoys is derived from its cures, and the confidence which prominent physicians all over Its value even if there were in print others of a similar nature, would be very great on account of its scope, its great number of its instructions, and the trustworthines of its author; but at present its value is enhanced by the fact that it has, properly speaking, no competitor. There is published no book of similar intent which is at once so large, so well illustrated, so closely brought down to the present time, and so full of illustrations. Dentists, surgeons, philosophers, chemists, engineers, mechanics and scientific men and students of every grade, will find here described and illustrated more of the instruments and machines peculiar to their professions than can be found in well furnished stores and manufactories, and they will also find a constant suplementary course of instruction so arranged as to be available for instant reference.
